Subject Index: Volume 13, 1998

Acetabular Reconstruction Component
results with, 50
Acetabulum
fracture stabilization with cables in acute hip arthroplasty, 104
results of isolated acetabular revisions, 41
Activity assessment
in joint replacement patients, 890
American Association of Hip and Knee Surgeons
abstracts from seventh annual meeting, 221
Animal studies
histologic response to titanium implants, 816
impaction grafting in goats, 438
surface texture of hydroxyapatite-coated or porous-coated implants, 449
Antibiotics in cement
long-term elution of, 331
Aortic thrombosis
after acetabular revision of hip arthroplasty, 961
Arthopor 2 acetabular component
follow-up study of, 299
Arthritis
juvenile chronic, hip arthroplasty in, 259
posterior condylar angle in osteoarthritic knees, 812
and preoperative physical therapy in knee arthroplasty, 414
primary osteoarthritis of elbow, 837
rapidly progressive osteoarthrosis of hip, 642 rheumatoid
hydroxyapatite-coated hip prothesis in, 660
and rotator cuff repair during shoulder arthroplasty, 311
unicompartmental knee arthroplasty in gonarthrosis, 373
Universal Wrist Implant in, 515
Aseptic loosening of hip arthroplasty
detected with urinary crosslinks, 687
in osteolysis from periprosthetic acetabular fracture, 843

Bateman prosthesis
and periprosthetic bone loss, 422
Bipolar prostheses
hip, wear of, 668
shoulder, for painful conditions, 631
Blood loss
in sequential bilateral knee arthroplasty, 77
Blood transfusions
and methyl methacrylate in salvage blood after knee arthroplasty, 576
strategies for knee arthroplasty, 70
Bone
ingrowth of
in acetabular cup at 12 years, 50
in hydroxyapatite-coated or porous-coated implants, 449
implant surface morphology affecting, 928
interstitial growth into titanium implants, 816
losses around hip prostheses, 422
periprosthetic viability at revision of cemented acetabular component, 524
proximal femoral focal deficiency of, hip arthroplasty in, 356

Bone grafts
allografts in acetabular revisions, 61
cemented morselized allografts in goats, 438
femoral allograft with simultaneous ipsilateral revision hip and knee arthroplasties, 833
impaction
and nonunion of extended trochanteric osteotomies, 945
in osteolysis from periprosthetic acetabular fracture, 843
Book reviews, 483, 607, 966

***Candida glabrata* infection**
one-stage exchange knee arthroplasty in, 114
***Candida parapsilosis* infection of knee arthroplasty,**
479
salvage of arthroplasty in, 707
Cement
antibiotics in, long-term elution of, 331
debris in early failure of cemented knee replacement, 953
extrusion of
causing impingement after knee arthroplasty, 589
through tibial defect, skin ulcers from, 826
femoral, grading system in hip arthroplasty, 396
intramedullary spacer in hip arthroplasty, 197
modular head seating affecting cement-stem interface strength, 799
new acetabular cement pressurizer, 200
osteolysis in cemented knee arthroplasty, 592
periprosthetic bone viability at revision of cemented acetabular component, 524
results of cemented metal-backed acetabular components, 867
in salvage blood after knee arthroplasty, 576
stress affected by voids in distal mantle in hip arthroplasty, 793
Ceramic coating of implants
catastrophic failure of femoral heads, 108
and tibial component fixation in knee arthroplasty, 882
Cerclage wiring
in intraoperative proximal femoral fractures, 653
Charnley low-friction arthroplasty
cup wear and fracture in, 132
results in young patients, 123
Clinical pathways
and cost reduction in hip arthroplasty, 266
Collagen *n*-telopeptide crosslinks
urinary excretion in aseptic loosening of hip arthroplasty, 687
Computer simulation
knee kinematics after arthroplasty, 145
Condylar constrained prosthesis
in knee arthroplasty, 380
Contact areas
intraoperative assessment of tibiofemoral stresses in, 923
patellofemoral
between native patellas and prosthetic femoral components, 693

patellar meniscus affecting stress in, 722
tibiofemoral, with mobile meniscal bearing knee arthroplasty, 699
Contractures
release in soft tissue balancing of hip, 97
Core decompression
in osteonecrosis of femoral head, 34
Costs
benefits of early intervention in silent osteolysis, 277
comparison of bilateral and unilateral joint arthroplasties, 172
hospital cost control programs, 504
international comparisons in hip arthroplasty, 296
reduction program affecting hip arthroplasty outcome, 266
Cruciate ligament, posterior
immunohistochemistry of mechanoreceptors in, 916
performance with cruciate-retaining and posterior-stabilized knee prostheses, 906
retained or sacrificed in knee arthroplasty
muscle strength after, 779
outcomes with, 138
retention in knee arthroplasty, and incapacitating instability, 763
role in knee-joint proprioception after arthroplasty, 580

Delamination of polyethylene
oxidation affecting, in knee arthroplasties, 280
Deoxypyridinoline crosslinks
urinary excretion in aseptic loosening of hip arthroplasty, 687
Dialysis patients
hip arthroplasty in, 647
Dislocated hip arthroplasty
acetabular component orientation affecting, 530
and aortic thrombosis after acetabular revision, 961
complications after closed reduction of, 713
prognosis of, 17
Drains
compared to nondrainage in sinultaneous bilateral hip arthroplasty, 156
entrapment after reduction of dislocated hip arthroplasty, 713
Duraloc acetabular components
wear analysis of liners in, 508

Editorial
data required in journal articles, 121
Elbow arthroplasty
in primary osteoarthritis, 837
Electrocautery use
and intraoperative pacemaker dysfunction, 599
Endosteal referencing
in revision knee arthroplasty, 85
Enduron acetabular liners
examination of wear in, 508

Factor V Leiden
and thrombosis after hip arthroplasty, 207
Femur
distal, telemetry of forces in, 428
fracture of shaft, interprosthetic, 361
interim intramedullary nailing in complicated hip replacement, 467
intramedullary rodding during knee arthroplasty, 718
osteonecrosis of head
core decompression in, 34
and hip arthroplasty in young patients, 876
osteotomy of, cemented hip arthroplasty after, 243
proximal focal deficiency of, hip arthroplasty in, 356
proximal fractures of, intraoperative, in hip arthroplasty, 653
shaft fractures in hip arthroplasty patients
bilateral pathologic fractures in thalassemia, 217
conservative treatment of, 162
supracondylar fractures above knee arthroplasty, intramedullary stem fixation in, 473
wide proximal resection of, and capsular replacement with synthetic mesh, 860
Follow-up studies
allograft bone in acetabular revisions, 61
all-polymeric knee prosthesis, 388
Arthopor 2 acetabular component with screw fixation, 299
bony ingrowth of acetabular cup at 12 years, 50
cemented Charnley arthroplasties in young patients, 123
cemented metal-backed acetabular components, 867
cementless Ortholoc femoral components, 768
cerclage wiring in intraoperative proximal femoral fractures, 653
core decompression for early osteonecrosis of femoral head, 34
dual-radius acetabular component in hip arthroplasty, 804
fate of dislocations after hip arthroplasty, 17
hip arthroplasty after previous femoral osteotomy, 243
hip arthroplasty in juvenile chronic arthritis, 259
hybrid hip arthroplasty in patients less than 50 years old, 485
hydroxyapatite-coated prostheses
compared to porous-coated fixation in bilateral hip arthroplasty, 729
in rheumatoid arthritis, 660
life expectancy after hip arthroplasty, 874
long-term elution of antibiotics from cement, 331
Mecron ring prosthesis failure in hip arthroplasty, 638
oblong prostheses for large acetabular defects, 559, 674
porous-coated anatomic prostheses
compared to hydroxyapatite coating in bilateral hip arthroplasty, 729
revision prosthesis in revision knee arthroplasty, 681
uncemented midstem femoral prosthesis evaluation, 535
problems with Rotaflex knee prosthesis, 402
results of cemented and cementless knee arthroplasties, 409
results of isolated acetabular revisions, 42
ten-year survivorship of metal-backed unicompartmental knee arthroplasties, 901
trochanteric union after revision hip arthroplasty, 29
uncemented porous-coated long-term stable fixation hip prostheses, 546
unicompartmental knee arthroplasty, 373
in middle-aged patients, 365
wear analysis in. *See* Wear analysis
Fractures
of acetabular cup in Charnley arthroplasty, 132
avulsion, of ischium, after hip arthroplasty, 603
and femoral plate removal after rod insertion in knee arthroplasty, 718
femoral shaft
conservative treatment in hip arthroplasty patients, 162
interprosthetic, 361
pathologic, complicating hip arthroplasty in thalassemia, 217
hip, hemiarthroplasty in, 774
periprosthetic, acetabular, extensive osteolysis from, 843
proximal femoral, intraoperative, in hip arthroplasty, 653
tibial shaft, nonunion complicating tibial tubercle osteotomy, 958
Fungal infection of prosthetic knee
Candida parapsilosis in, 479, 707
one-stage exchange knee arthroplasty in, 114

Gait analysis
in bilateral knee arthroplasties, 906
Gonarthrosis
unicompartmental knee arthroplasty in, 373
Grading of femoral cement
in hip arthroplasty, 396
Gruen zones, periprosthetic
bone loss in, 422
in evaluation of cementless Ortholoc femoral components, 768

Hemiarthroplasty
conversion to total hip arthroplasty for groin/buttock pain, 627
in hip fracture care, 774
Heparin
in thromboprophylaxis after total joint arthroplasty, 180
Hip
rapidly progressive osteoarthrosis of, 642
soft tissue balancing of, 97
Hip arthroplasty
abduction of acetabular component affecting polyethylene wear in, 621
accuracy of intraoperative cup anteversion in, 80
acute, and acetabular fixation with cables, 104
Arthopor 2 acetabular component with screw fixation in, 299
aseptic loosening of
detected with urinary crosslinks, 687
in osteoolysis from periprosthetic acetabular fracture, 843
avulsion fracture of ischium after, 603
bilateral
comparing hydroxyapatite coating and porous-coated fixation, 729
drain versus nondrain in, 156
bony ingrowth of acetabular cup at 12 years, 50
capsular replacement with synthetic mesh in, 860
catastrophic failure of ceramic-polyethylene implant bearing in, 108
catastrophic progression of modular acetabular component disassembly in, 950
causes of rapid acetabular wear, 291
cement-stem interface strength affected by modular head seating, 799
cement stress in, voids in distal mantle affecting, 793
cemented
after previous femoral osteotomy, 243
cup wear and fracture of Charnley arthroplasties, 132
femoral cement grading in, 396
new acetabular cement pressurizer in, 200
periprosthetic bone viability at revision of cemented acetabular component, 524
results of Charnley arthroplasties in young patients, 123
results with metal-backed acetabular components, 867
cementless procedures in femoral head osteonecrosis in young patients, 876
in chronic dialysis patients, 647
coagulase-negative staphylococcal infection in, 935
component weights compared to knee components, 101
cost comparison of bilateral and unilateral procedures, 172
cost reduction affecting patient outcome in, 266
dislocated
and aortic thrombosis after acetabular revision, 961
complications after closed reduction of, 713
effects of acetabular component orientation in, 530
prognosis of, 17
dual-radius acetabular component in, 804
and femoral head surface roughness affecting polyethylene wear, 615
femoral shaft fractures after
conservative treatment of, 162
interprosthetic, above knee arthroplasty, 361
fluid and particle flow through modular acetabular cups in, 254
follow-up of uncemented implants, 546
Ortholoc femoral components in, 768
hemiarthroplasty
conversion to total arthroplasty for groin/buttock pain, 627
in fracture care, 774
heparin thromboprophylaxis in, 180
heterotopic ossification suppression in, 854
hybrid fixation in patients less than 50 years old, 485
hydroxyapatite-coated prostheses in
compared to porous-coated fixation, 729
in rheumatoid arthritis, 660
and impaction grafting in goats, 438
infected
interim femoral intramedullary nailing in, 467
and long-term elution of antibiotics from cement, 331
international survey of costs in, 296
intraoperative proximal femoral fractures in, 653
in juvenile chronic arthritis, 259
length of hospital stay and rehabilitation needs in, 186
life expectancy after, 874
Mecron ring prosthesis failure in, 638
metal-on-metal articulation in, 339
modified direct lateral approach in, 737
oblong prostheses for large acetabular defects in, 559, 674
and osteolysis with Hylamer acetabular liners, 464
periprosthetic acetabular fracture causing extensive osteolysis, 843
periprosthetic bone loss after, 422
polyethylene wear in. *See* Wear analysis
porous-coated anatomic uncemented midstem femoral prosthesis in, 535
in proximal femoral focal deficiency, 356
revision
acetabular liner revision in, 348
after cemented Charnley arthroplasties in young patients, 123
allograft bone repair of socket defects, 61
analysis of periprosthetic membranes in, 320
aortic thrombosis after acetabular component revision in, 961
determination of penetration rates in, 570
interim femoral intramedullary nailing in, 467
intramedullary cement space in, 197
isolated acetabular revisions, 41
nonunion of extended trochanteric osteotomies in, 945
oblong cups for large acetabular defects in, 559, 674
periprosthetic bone viability at revision of cemented acetabular component, 524
simultaneous ipsilateral revision with knee arthroplasty, 833
trochanteric union after, 29
sciatic nerve entrapment in, 586
in thalassemia patient with bilateral pathologic fractures, 217
and thrombosis risk with factor V Leiden, 207
trochanteric osteotomy in
comparison of two techniques in, 92
union of trochanters after, 29
wear analysis in. *See* Wear analysis
Home therapy
continuous passive motion machine in, after knee arthroplasty, 784
Hospitals
cost comparison of bilateral and unilateral joint arthroplasties, 172
cost control programs, 504
affecting hip arthroplasty outcome, 266
length of stay in
after hip or knee arthroplasty, 186
related to manipulation rate after knee arthroplasty, 896
Hybrid hip arthroplasty
in patients less than 50 years old, 485
Hydroxyapatite-coated implants
in hip arthroplasty
compared to porous-coated fixation in bilateral replacements, 729
in rheumatoid arthritis, 660
stability after wiring of intraoperative proximal femoral fractures, 653
resorption affected by micromotion, 449
tricalcium phosphate with, and tibial component fixation in knee arthroplasty, 882
Hylamer acetabular liners
early osteolysis with, 464
examination of wear in, 508

Immunohistochemistry
of mechanoreceptors in posterior cruciate ligament, 916
Impaction grafting
and nonunion of extended trochanteric osteotomies, 945
in osteolysis from periprosthetic acetabular fracture, 843
results in goats, 438
Impingement
from cement extrusion in knee arthroplasty, 589
Infection
in hip arthroplasty
coagulase-negative staphylococci in, 935
and femoral intramedullary nailing as interim or salvage technique, 467
in knee arthroplasty
Candida parapsilosis in, 479, 707
and one-stage exchange arthroplasty for fungal infection, 114
two-stage reimplantation for, 22
and long-term elution of antibiotics from cement, 331
Instability
in cruciate-retaining knee arthroplasty, 763
International survey
of costs in hip arthroplasty, 296
Interobserver variability
in cement mantle grading, 396

Unicompartmental knee arthroplasty
long-term follow-up study, 373
metal-backed, 10-year survivorship of, 901
in middle-aged patients, 373
revision of, 191
Universal Wrist Implant
experience with, 515
Urinary crosslink levels
and detection of aseptic loosening in hip arthroplasty, 687

Vancomycin
long-term elution from cement in infected joint arthroplasies, 331
Vascular injuries
and aortic thrombosis after acetabular revision of hip arthroplasty, 961
in knee arthroplasty, 322
popliteal pseudoaneurysm in, 830

Wear analysis
in hip arthroplasty
abduction of acetabular component in, 621
acetabular component orientation in, 530
with acetabular cup fracture in Charnley arthroplasty, 132
with bipolar hip prostheses, 668
catastrophic failure of ceramic-polyethylene implant bearing in, 108
causes of rapid acetabular wear in, 291
determination of penetration rates in, 570
with Enduron acetabular liners, 508
femoral head surface roughness in, 615
in femoral stems, 492
and fluid and particle flow through modular cups, 254
with Hylamer acetabular liners, 464, 508
with polyethylene cylindrical liners of acetabular components, 1
uncemented implants in, 546
in knee arthroplasty
with all-polymeric prosthesis, 388
delamination of polyethylene in, 280
in failure from severe metallosis, 116
mobile meniscal bearing implant in, 699
radiography of particulate debris in, 351
and revision arthroplasty for modular tibial insert failure, 609
striated pattern in polyethylene components, 8
Wiring, cerclage
in intraoperative proximal femoral fractures, 653
Wound healing
and drains compared to nondrainage in simultaneous bilateral hip arthroplasty, 156
Wrist arthroplasty
Universal Wrist Implant in, 515

Young patients
hip arthroplasty in
in femoral head osteonecrosis, 876
hybrid arthroplasty in patients less than 50 years old, 485
in juvenile chronic arthritis, 259
results of cemented Charnley arthroplasty in, 123
